PETITIONS OFFICE

Applicant is at this time submitting to the Examiner a formal request that the Examiner reconsider that determination. Applicant's request contains a careful analysis of the materials relied on by the Examiner and of the relevant legal issues, and explains in detail why the determination should be reconsidered and withdrawn.

The Examiner's determination of a prima facie case of prior public use is a necessary condition to the institution of the public use proceeding. Such a proceeding would be a significant burden, both in time and cost, to the Applicant and to the Patent Office. Moreover, any delay, caused by the public use proceeding, in the issuance of a patent for Applicant's invention is likely to result in a reduction of the term of that patent.

At the same time, it appears that the regulations are completely void of any procedure that provides for any review or reconsideration of the Examiner's determination. It is noted that a hearing has been scheduled for September 9, 1999 to determine whether public use proceeding should be instituted. However, during a telephone conference on July 29, 1999 with Mr. Silverberg of the Petitions Branch, Applicant's Attorneys were advised that the Examiner's determination of a prima facie case of prior public use would not be considered or reviewed at this hearing.

PETITIONS OFFICE

Applicant submits that it is appropriate and prudent to have administrative review or reconsideration of the Examiner's decision before the Patent Office initiates a lengthy and expensive public use proceeding. In addition, Applicant submits that administrative due process requires that Applicant have the right for review or reconsidered of the Examiner's decision in some forum in the Patent and Trademark Office.

Applicant is not aware of any regulation that prohibits the Examiner from reconsidering the determination of prior public use. In the event, however, that some regulation does prohibit that reconsideration, Applicant requests that this Petition be considered as a Petition under 37 C.F.R. §1.183 to waive or suspend such regulation, for the reasons set forth above, and to allow the Examiner to reconsider the determination.

A Petition Fee in accordance with 37 C.F.R. §1.17(h), in the amount of \$130.00 is hereby authorized to be charged to Deposit Account Number 19-3886. A duplicate copy of this Authorization is transmitted herewith.

Respectfully submitted,
